

READING HORIZONS® DISCOVERY

WHERE READING MOMENTUM BEGINS

Reading Horizons® Discovery (RHD) is a product suite for K–3 foundational literacy, designed for educators and students across all tiers of instruction, offering specific areas of emphasis to address various instructional settings. It brings together over 40 years of evidence-based, proven methodology and features versatile literacy instruction that enables mastery of foundational reading skills, including phonemic awareness, decoding, high-frequency words, and spelling.

TODAY

of students nationwide are **not** reading proficiently by the end of third grade.

**LET'S MAKE A
CHANGE TOGETHER!**

WHY READING HORIZONS® DISCOVERY PRODUCT SUITE?

The RHD Product Suite combines evidence-based literacy instruction with high-quality materials, ensuring students can develop English skills more effectively and efficiently.

- Our evidence-based method provides credible, research-backed results that educators can rely on for effective literacy instruction.
- Our versatile instructional approach adapts to your school's specific needs, ensuring effective literacy instruction in any environment.
- We are invested in your success, offering ongoing support and partnership to achieve your literacy goals.

"I love how each skill is broken down each day. The scripts for the teachers are an amazing help! The Skill Checks for each skill are great too. I am loving the program, and I can see a difference in my students' reading."

—Morgan White, teacher, Montgomery ISD, TX,
Reading Horizons® Discovery, General Education

EMPOWERING EDUCATORS AND K-3 STUDENTS

The RHD Product Suite has been developed with districts, schools, teachers, and students in mind. Our invested partnership approach meets educators and readers where they are, providing guidance and support along their journey.

READING HORIZONS INSTRUCTIONAL METHOD

The RHD Product Suite leverages our proprietary instructional method, implementing it throughout the software, curriculum, and supplemental materials. Aligned with the science of reading and learning, the program is based on Orton-Gillingham principles. It provides a multimodal approach to direct, explicit, systematic, and cumulative phonics instruction. The program features Five Phonetic Skills and Two Decoding Skills to help readers decode and encode words of any length.

PRODUCT SUITE COMPONENTS

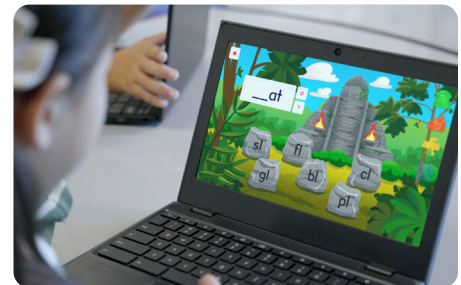

READING HORIZONS® DISCOVERY LIVE

Designed for educators, RHD LIVE simplifies teaching evidence-based curricula with a comprehensive digital experience right at their fingertips. It provides access to engaging lesson content, robust teaching resources, simple preparation modules, real-time data insights, and more—empowering teachers to deliver impactful instruction tailored to the needs of every learner and equipping educators with the information they need to ensure student progress.

READING HORIZONS® DISCOVERY WORLD

Designed for students, RHD WORLD transforms the learning experience into an exciting adventure in playful environments. Here, students reinforce the skills taught by their teachers through interactive activities and assessments that make learning enjoyable and effective.

READING HORIZONS® DISCOVERY COMPANION

RHD COMPANION is a compilation of grade-specific reference and support materials for teachers and students. It includes Phoneme Cards, portable Sound Wall posters, reference posters, Student Transfer Books, and Decodable Books.

EVERY STUDENT MATTERS

The RHD Product Suite provides instructional versatility, enabling educators to implement our method and curriculum seamlessly in different learning environments. Our solutions excel in high-tech and low-tech classrooms, supporting all tiers of instruction as well as multilingual learners and special education settings. Our approach meets the unique needs of every school setting.

- Whole classroom
- Intensive intervention
- Multilingual learners
- Special education
- Small-group intervention
